

Agenda: QUITTIE WATERSHED MEETING - 10/04/2001

QUITTIE WATERSHED ASSOCIATION MEETING ON THURSDAY 10/04/01 at 7:00 P.M. AT LEBANON AGRICULTURAL CENTER 2120 CORNWALL ROAD.

2. Cleona Park - Matt Ehrhart wants to finish the northwest side of the bridge and fill in some of the eroded areas of the bank. The funds come from DEP and we may be able to use stone (\$10/ton) as an in-kind contribution. We still need the bill from Riegle for trucking the stone.

Matt has also offered to provide trees and shrubs gratis and may have an auger to plant the trees.

3. Quittie Creek Nature Park - there are piles of stone at the deflectors and at a badly eroded area to be placed into the stream.

4. Career and Technology Center Wetlands Grant-

Wetlands Restoration. Jeff Steckbeck said that he would recommend two excavators, Gleim was contacted - they said that the earliest they could do the job was next year. Aungst was contacted and they were sent the information to make a bid. Aungst has done extensive work with wetlands restoration and creation in Schykill County and comes highly recommended.

Pavilion. John Johnson from the Career and Technology Center is coordinating their efforts. Ralph will contact John for site location and placing prints in the cement.

5. Little Swatara Grant- 9825 feet of stream bank has been fenced. More farms are signed up for stream bank work.

6. Hammer Creek- 9916 feet of stream bank has been fenced. Mr. Musser wants to have an additional crossing and the Barry brothers say they are ready to fence part of their stream bank.

7. Rocky Powell and the Assessment Grant. Dave will ask Rocky re: GIS information on the Quittapahilla. Dave will also ask Rocky re: the sites and details for macro invertebrate studies.

Dave will ask Khervin re: aerial photos from Penn DOT

8. Lebanon Valley Conservancy- being under the conservancy would allow us to partner with them to write grants to have a full time staff person.

9. Work days: October 20th, November 3rd and November 10th.

10. Work projects-

(1) October 20 @8:30 A.M. plantings on the farm(s) - completion of the Waldhausen Farm first on the list.

(2) November 3rd @ 8:30 A.M. Quittie Creek Nature Park in Annville - add stone to existing deflectors and
