Lebanon, PA 17046-5024

Re: SC150075 - Quittapahilla Creek EPA 319 Watershed Implementation Plan

Dear Mr. Gibble:

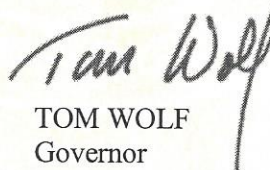

Congratulations! I am pleased to inform you that the above Growing Greener Grant Application you submitted to the Department of Environmental Protection (DEP) was selected to receive an Environmental Stewardship and Watershed Protection (Growing Greener) Grant in the amount of \$26,250.

There were 202 eligible applications received by DEP for review and consideration in response to the seventeenth year of the Growing Greener grants program. We are very pleased to see the continued interest in watershed restoration and protection. Selecting from the many excellent project proposals has been more difficult than ever this year.

Your organization is required to meet with your DEP project advisor in order to discuss the 2015 Growing Greener grant administration requirements and any Scope of Work or budget related issues relevant to your specific Scope of Work. Your regional DEP office will contact you to arrange for this meeting. We will soon send the necessary grant agreement documents to you for execution.

If you have any questions or if we can be of assistance, please contact DEP's Grants Center by e-mail at growinggreener@pa.gov or by telephone at 717.705.5400. We also encourage you to visit our web site frequently for program information at www.dep.pa.gov/growinggreener. A database of grants awarded can also be found at this site; click on "Watershed Grants" under Related Information. We look forward to working with you on this project and appreciate the efforts you took to develop your proposal.

Sincerely,

TOM WOLF
Governor
