Re: **Quittapahilla Creek Restoration-Spruce Street**

Dear Mr. Collins,

On behalf of the Pennsylvania Fish and Boat Commission (PFBC) Tulpehocken and Quittapahilla Watershed Enhancement Program Review Panel, thank you for your interest in this grant program and submitting the application entitled *Quittapahilla Creek Restoration-Spruce Street*.

The panel has carefully reviewed your application and the Commission has *provisionally* **approved your project for funding**, pending a satisfactory project field review.

Over the next few weeks, we can initiate preliminary development of the final scope-of-work and cooperative agreement. Please note that until the cooperative agreement is fully executed and notification to proceed is received from the Commission, no expenses are allowed and match will not be accepted.

Again, our appreciation for your interest in this grant program and congratulations upon submitting a successful application. If you have questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Diana M. Day".

Diana M. Day
Conservation Coordinator
