Quittapahilla Creek Watershed Assessment Volume 2 – Restoration and Management Plan

Prepared For

Quittapahilla Creek Watershed Association

Prepared By

**Clear Creeks Consulting LLC
Jarrettsville, MD**

In Association with

**Skelly & Loy, Inc.
Harrisburg, PA**

December 2006

TABLE OF CONTENTS

Executive Summary	
Section 1 – Introduction	1
Section 2 – Methods for Identifying and Prioritizing Restoration and Management Strategies	2
2.1 Identification of Potential Watershed and Stream Management and Restoration Projects	2
2.2 An Evaluation of the Effectiveness of Implementing Restoration and Management Projects	3
2.3 Prioritization of Management and Restoration Projects	3
Section 3 – Potential Best Management Practices	3
3.1 General Approach	3
3.2 Best Management Practices for Controlling Agricultural Runoff	4
3.2.1 Evaluation Methods	4
3.2.2 Agricultural BMP Options in PREDICT	5
3.2.3 Pollutant Reduction Efficiencies	5
3.2.4 Implementation Costs	7
3.2.5 Potential BMP Implementation in the Quittapahilla Watershed	8
3.2.6 Prioritization of Agricultural Best Management Practices	10
3.3 Best Management Practices for Controlling Urban Runoff	10
3.3.1 Regional Approach versus On-Site Management Practices	11
3.3.2 Evaluating BMP Options	11
3.3.3 Developing the BMP Plan for Quittapahilla Creek	14
3.3.4 Evaluation Methods	15
3.3.5 Proposed Urban Stormwater Best Management Practices	19
3.3.6 BMP Site Descriptions and Cost Estimates	21
3.3.7 Prioritization of Urban Best Management Practices	51
Section 4 – Potential Restoration Measures	54
4.1 General Comments on the Recommended Measures	54
4.1.1 Traditional Approaches	54
4.1.2 Geomorphic Approach	54
4.1.3 Level of Intervention	54
4.1.4 Designing the Stable Channel Form	59
4.1.5 Channel Stabilization Techniques	60
4.1.6 Floodplain and Wetland Restoration	60
4.2 Evaluation Methods	68
4.3 Proposed Restoration Measures	71

4.4	Preliminary Cost Estimates	106
4.5	Prioritization of Stream Restoration Measures	114
Section 5 – Long-Term Management Strategies		117
5.1	Introduction	117
5.2	Planning Tools	117
5.3	Policies	117
5.4	Action Agenda	118
5.5	Regulatory Tools	118
5.5.1	Federal Regulations	118
5.5.2	State Regulations	119
5.5.3	Current Local Stream Protection Regulations	119
5.6	Recommended Policies and Programs	120
5.6.1	Timber Harvest Permits and Best Management Practices	120
5.6.2	Land Management Plans and Best Management Practices	120
5.6.3	Conservation Easements	120
5.6.4	Land Acquisition	121
5.6.5	Stream/Floodplain Corridor – Land Use Covenants	121
